<b>No.25</b>		Road <b>U</b> Section	Map ref: E515262 N415181	Parish:
Location	<b>HABROUGH ROAD, SOUTH KILLINGHOLME, NORTH LINCOLNSHIRE</b>			District: North East Lincolnshire
Description	This relates to a 2 car RTC on a 60mph road. The road has a S bend that goes up hill where the collision has occurred. Vehicle 2 has braked heavily to a stop upon seeing a cat. V1 has collided into the rear of V2 and swerved off the road into the ditch. His BMW has caught fire. Driver of V2 has sustained very minor injuries amounting to a red mark on his arms from where the airbags have gone off .			
Severity SLIGHT	In my opinion V2 is at fault as he has not been able to stop in the distance clear in front of him. Despite that because of the road layout and V2 braking heavily for a cat, I do not feel it in the public interest to prosecute. Only injured party is driver of V1 and he has sustained minor injury. All documents were in order.

<b>No.38</b>		Road <b>U</b> Section	Map ref: E517420 N413498	Parish:
Location	<b>ROXTON ROAD, IMMINGHAM</b>			District: North East Lincolnshire
Description	<p>Approximately 10:15 hours on 10/10/17 Casualty 1 and her daughter (witness) have been walking their dog along ROXTON ROAD back towards STALINBOROUGH ROAD(from SW in direction of NE), on the left side with back to traffic. Witness hears a vehicle behind her, looks around to see a tractor (VEH 1) travelling towards them and in the same direction of them. Casualty 1 and witness 1 step off the road onto a small grass verge (2' wide) and up against a crash barrier with their back towards the road and await the tractor to pass them. The verge is bordered to a crash barrier and multiple bushes and vegetation. The tractor which has a shrub cutter fitted to the front approaches and as it gets closer to the pedestrians Witness ducks as she realises the side guard on the shrub cutter was going to hit them, the shrub cutter then strikes the casualty to the face, causing her to fall to the ground. The casualty sustains soft tissue damage to her right arm due to fall and lacerations to the nose, forehead and around her eyes. Driver stops and when realised what had happened calls ambulance but casualty declines for ambulance so they do not attend. Driver passes his details to casualty and leaves. Casualty later that day attends at hospital and is told she has soft tissue damage only to arm and her cut to nose is glued.</p>
